

Speeddealer, Machinations

oh no, i'm in your sights
another sacrifice, a brand new day
time's a thief, a vacuous hole
enemies come in all shapes

your little machinations
those little machinations
evil, evil machinations

prickly pin-pricks pinning me
a manifestation that's gone too far
formidable objects you set in motion
ever erect insurmountable....
god those little machinations
the little machinations
evil evil machinations
evil fucking machinations

i'm onto you...get them away
i'm onto you...keep them away
get them away
