

# Spheric Universe Experience, Neptune's Revenge

Darkness on the sea - a cyclone on a ship  
Damned navigators this faith you won't keep ...  
Terror in the sky - lightning strikes the men  
Who challenge my traps, my force and my brain!

The eye of the storm is my home  
The shores of the stream are my bones

Submerged by the waves - fallen into the abyss  
My revenge is here and you can't escape it... (no escaping)

I am the sea  
I have the power  
I am the god  
I'm your disaster

Fear! Pain! Harsh! Strain!

You can't see me  
You have a master  
You are alone  
You taste my anger

Haze is dully lifting but it's almost the end  
Of your mystical journey, now stare at my eyes  
You can't control me there is no compromise  
The battle is over - got your ruins in my hands! (in my hands)
