

# Spiderbait, Daisy May

I think of you I want to know  
Where is the place we used to go?  
I feel like I have been away  
Just thinking of you makes me say  
Hey, hey, daisy may  
Where are you now I'm coming to stay  
Today I'm always up and down  
I need to get back to the town  
Where I was introduced to you  
And all the things we used to do  
Every day, daisy may  
Where are you now are you coming to stay?  
I think of you and now I know  
I've seen the place we used to go  
I know that I have been away  
But still I know I wanna say  
Hey, hey, daisy may  
Where are you now I'm coming to stay
