

Spineshank, Negative Space

I don't have what you need
You don't know but I still see
The situation brings me down

See wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days
I'm dying now!

I don't care what you want
You don't know I'm already gone
The situation brings me down

See wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days
I'm dying now!

What I feel everyday keeps everything nice and cold
I'm not sure what you need, it's not me anymore
All of our memories are just a thought away
Get the fuck away from me

See wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days
I'm dying now!

See wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days
I'm dying now!
