## Spineshank, Negative Space

I don't have what you need You don't know but I still see The situation brings me down

See wasted days inside me No changing ways becoming Falling away from nothing Sobering days I'm dying now!

I don't care what you want You don't know I'm already gone The situation brings me down

See wasted days inside me No changing ways becoming Falling away from nothing Sobering days I'm dying now!

What I feel everyday keeps everything nice and cold I'm not sure what you need, it's not me anymore All of our memories are just a thought away Get the fuck away from me

See wasted days inside me No changing ways becoming Falling away from nothing Sobering days I'm dying now!

See wasted days inside me No changing ways becoming Falling away from nothing Sobering days I'm dying now!
