

Spineshank, Stovebolt

Untie me
This peace of mind can't let go
Beside me
The finer things start to show
Divide me
Into your life
Beat it down and it's lying on the floor

Feel until you're suffering
It's all for real (Now your suffering)
And still you're suffering (Now you suffer)

I loved you
An inconvenience to me
I warned you
Because my World you can't see
Adored you
That's what you think
I beat you down and you're lying on the floor

Feel until you're suffering
It's all for real (Now your suffering)
And still you're suffering (Now you suffer)

It's all for you
It's all for you
It's all for you
It's all for you

Untie me
This piece of mind
Untie me
This piece of mind
Mind

Suffer you
Suffer you
Suffer you
Suffer you

Feel until you're suffering
It's all for real and still you're suffering

Feel (Now your suffering)
Until you're suffering (Now your suffering)
It's all for real (Now your suffering)
And still you're suffering (Now your suffering)
