

Spiritfall, Fallout

Complicate my complication but i just don't know
interpreting my interpretation
on the direction my life must go
throwing my pride into the fire you're fueling my shame
it's part of me that i never did like
but its something i just can't
change

you seal your own fate
you ignite my shame
to you it's a game
fallout of my way

atomic nuclear fusion too late to change
explosion of my confusion end of my pain
quicksand i'm sinking deeper and I can't get out
someday i'll rise above you someway somehow

i cannot take your place i miss seeing your face
what's with this torn in my side that i can't get out
i cannot take to your place
i miss feeling your hand in mine
whats with this torn in my side
that i can't get out
i cant get out
