

Spiritfall, Feels Like

"Verse 1"

Feels like I'm walking in this world alone
And its so cold what will be taken now
And i feel like im a case too often thats falling down
And its quiet, i can hear a pin as it hits the ground

"Pre Chorus"

Wondering what could happen next
Thoughts come
I'm thinking my life could take me next

"Chorus"

Is this world against me now
I would stand my ground
And find out how
When I'm up i still feel down
Is it over

"Verse 2"

Transfer, energy into the form of pain
And i hate this
Confusion comes
Its already here
And I'm so lost
My body screams i tumble down
And its quiet
I can hear my pain as it hits the ground

"Pre Chorus"

Wondering what could happen next
Thoughts come
Thinking my life could take me next

"Chorus"

Is this world against me now
I would stand my ground
And find out how when I'm up i still feel down
Is it over

"Bridge"

Its hard to fight this
Its hard to fight alone
I won't let it beat me
When faced i will fight on
Confusion is right for me
But strength will overcome
Won't let it beat me

"Chorus"

Is this world against me now
I will stand my ground
And find out how when I'm up i still feel down
Is it over

Is this world against me now
I would stand my ground
And find out how
When I'm up i still feel down
Is it over
