

Spiritfall, Forgotten Memory

Take a look at yourself
You're wasting your life away
You need to change
change your ways
Stop hurting the people who love you

I see it in your hopes
I see it in your eyes
I see it in your heart
behind your tearful disguise

I see it in your hopes
I see it in your eyes
I see it in your heart
behind your tearful disguise

You live your life in on abyss
No escaping your loneliness
You know you had innocence
But you stripped it away

I see it in your hopes
I see it in your eyes
I see it in your heart
behind your tearful disguise

I see it in your hopes
I see it in your eyes
I see it in your heart
behind your tearful disguise

How could you do this to family
In the blink of an eye you ripped it away
How could you do this to family
To family

To family!

You know we tried to help you
But what else are we supposed to do

You know we tried to help you!
But what else are we supposed to do..
