

# Spiritual Beggars, Cosmic Romance

Power up the electric lady  
lick her spasmic skin stick one finger into her mouth  
wet her up for a carnival  
Let luna set fire to our souls  
Red wine won't escape our tongues kiss scars of yesterday  
goodbye let the romance kick off  
Our minds are crystal clear don't mind the silver lace  
there's no limit for souls in love cosmic romance kick off
