## Spiritual Beggars, The Goddess

Said she's from another world I said, "I know what you mean" I gave her a little more red wine Our dreams came up for air Messengers from beyond Future plans and history I caught a little cloud My semen took off Yeah Baby! You make me high, make me fly Make me king of life You shake the earth, shake the dirt And we dance into the sun Sacred words appear Questions solved and we are gods The goddess is for real
