

Spirogyra, Bring Me Back

The day glow, comes in your room
Those who remain will never feel the same
These feelings, I have inside me
Try to deny me
I'm gonna wait on the years

Hearken to her song of life
Calling calling
Bring me back, I need you now
Help me, help me
Let me know I'm not alone
I love you

Tomorrow, who knows may find me?
Who knows the rolling wheel
The twist of fate on the line?

Hearken to her song of life
Calling, calling
Bring me back, I need you now
Help me, help me
Let me know I'm not alone
I love you
