

Spirogyra, Hey Lady

Hey lady, where you been so long?
Hey lady, where you dont belong
The sun is in the sky
The tears are in your eye
And I see you, and you see me

Hey lady, what did I do wrong?
Hey maybe, did I try too strong?
You check your mate in fifteen moves
But youre the one whose gonna lose
Cause I know you, and you know me
Come home

Hey lady, wont you please confess
Hey lady, give me your address
The sun is in the sky
The tears are in your eye
And I see you and you see me
And I see you
Come home
