

Spirogyra, She's The One

I got a feeling
love's gonna take me
love's gonna make me, or break me in two
See in the distance
she's started moving
I've started drooling
She's gotta gotta gotta be
I can see what she's doing to me

I'm hoping she comes today
Hoping she comes today
Now I know that, now I know that
now I know that, She's the One
Now I know that, now I know that
now I know that, She's the One
She's the one, She's the one

I gotta notion
Time now for action
she's a distraction
I gotta make a move that'll pay
or I'll wind up regretting this day

I'm hoping she comes today
Hoping she comes today
Now I know that, now I know that
now I know that, She's the One

I gotta feeling
love's gonna take me
love's gonna make me, or break me in two
I'm hoping she comes today
hoping she comes today
Now I know that, now I know that
now I know that, She's the One
