

Spitalfield, Are We Still Here

It's easier to play things down then hold your ground
That's when we fall through
Sometimes we hold on to knowing that were still friends
Are we still friends?
That's when we fall through

Pull harder-we're sinking down to nowhere
Drive farther-this trip is far from over
Try harder, drive farther
Silence can't last forever
Try harder, drive farther
Please, please just don't say never
Or we'll never come together

It's easier to make no sound than kid around
That's when our call's through

Sometimes we hold on like knowing that we're still here
Are we still here?
That's when we fall through

Pull harder-we're sinking down to nowhere
Drive farther-this trip is far from over
Try harder, drive farther
Silence can't last forever
Try harder, drive farther
Please, please just don't say never
Or we'll never come together
