

Spitalfield, Lasting First Impression

When it's all heading miles in the wrong direction
What's so hard in pushing now for a few feet more?
This was a lasting, lasting first impression
Breaking out for a sound to open up your door

So sing, so hard
Is this what you're about, sure hop on
So sing, so hard
If this is all you're about, hey right on

I don't know you and I don't care to

Hey, alright
You burnt some bridges tonight
And I won't try
To figure out what you thought would happen
You decide
How much credit you can buy
This was a lasting first impression
This was a lasting first impression

I don't know you and I don't care to now

I'm feeling it, it with inconvenience
And it makes me feel like I'm watching ghosts
I'm watching ghosts
