

Splendid, You And Me

We are electricity,
conducting sparks,
shower with me
We made this about
We made this about
You and me
You and me
Woven on the couch
I hold you like a baby boy
Runnin' my hands
in your warm black hair
you don't mean to be number one
and that's how come you are
I love how you surrender
I love how you surrender
We made this about
We made this about
You and me
You and me
You make me see
why I should love me
I'll look at you in love with me
We made this about
We made this about/You and Me (x5)
