

Splendor, Turn Down The Sun

La la la, la la
Turn the sun down (x2)
Hey!

Oh no, don't say "surf's up";
I don't hang ten
In fact I hang none
Keep me under tow
Hurry up and row
Maybe someone could turn down the sun
Turn the sun down (x2)

Where's Jaws when you need him?
A tsunami would just be too grim
Hey don't block my shade
Hold the lemonade
Maybe someone could turn down the sun
Turn the sun down (x4)
