

# Spock's Beard, The Distance To The Sun

There is no peace  
Here in my mind  
There's no way to see  
We're all born blind  
To some place some time  
When we could feel like  
We're joined inside  
We can't always  
See it with our eyes

But there is a world apart from what we know  
There is a time/place the eyes will never show  
We can be as one  
And be farther than the distance to the sun

There is no use you'll never win  
They'll only kick you back again  
Back where you've been  
And you're never satisfied  
Your wants just change  
You've been playing an unwinnable game

## CHORUS

Half the time we're gone, we don't know why  
Half of us are crying to the sky  
Once we're there we'll wonder why it took so long  
Once we're there we'll know what we became

## CHORUS
