

# Spoken Love, Chant

So this is where we start in black.  
Circles between her belly dance  
We weren't suppose to look back  
Her silent screams here  
show me that.

Wow,  
U've been there for it all  
When U give love  
It' sounds of all the wind..

So this is where we started at.  
The cities fell down made of sand  
forever  
I wasn't shure was it good or bad ..  
The whole world born thru a sea of death

Wow,  
U've been there for it all.  
When U give love  
The sound that I wanna ring on

and on ...
