

# Spoons, Smiling In Winter

I see the landscape changing  
From green and brown to white  
And the mercurys going down  
But Im safe here in my apartment  
I can watch it unaffected  
Ice and snow, ice and snow

Smiling in winter  
Snow on your hair  
Pine trees in living rooms

We drive on salted highways  
In our warm automobiles  
We laugh and play with snow  
Weve lost our fear of winter  
Life goes on well protected  
Ice and snow, ice and snow

Smiling in winter  
Snow on your hat  
A twentieth century luxury
