

Spoons, When Time Turns Around

When all the clocks stop
In my heart
Will you still be there
To take me back to the start?

When time turns around
Well do it all over again
One more time
When time turns around
Well take all the chances we missed
The first time around

When the world stops
Outside my room
I know you'll take me
To a place where everything comes true

When time turns around
Well do it all over again
One last time
When all the clocks unwind
Well take all the chances we missed
The second time around

There's something in this room
Scattered in the airwaves
Bouncing off the walls
Right to my head
The pictures on the wall
Shadows of a replay
Of things that should have happened
Long ago
Now no one else will know...

When time turns around
Well do it all over again
One last time
When all the clocks unwind
Well take all the chances we missed
And never turn around
