

Sponge, Give It A Try

I know you don't really know me
But you would if you'd only on come up and give it a try
Go on you know you might like it
Don't you, knock it till you try it come on up and give it a try

So if your wanna come over c'mon c'mon c'mon
If you don't then you might as well just stay at home
If your still asking why just give it a try

If you only try one thing
This year make it my thing
Come on up and give it a try
Im just asking a question im not teaching a lessons
Come on up and give it a try

So if your wanna come over c'mon c'mon c'mon
If you don't then you might as well just stay at home
If your still asking why just give it a try

So if your wanna come over c'mon c'mon c'mon
If you don't then you might as well just stay at home
If your still asking why just give it a try

So if your wanna come over c'mon c'mon c'mon
If you don't then you might as well just stay at home
If your still asking why just give it a try

You know you never seem to listen
You don't know what your missing
Come on up and give it a try
Maybe you should take a back seat
Belt up ready for a real treat
Come on up and give it a try

So if your wanna come over c'mon c'mon c'mon
If you don't then you might as well just stay at home
If your still asking why just give it a try
