

SS501, Because I

Because Im too stupid
I dont know anyone but you
You, how is looking at someone else
Probably dont know how I feel
Im probably not in your days
Probably dont have any memorise of us either
Me, how is only looking at you
Again and again, the teras fall
Im happy even seeing your back
Although you dont know my feelings
In the end, you pass by me like the wind
The days, when I miss you so much
The days when I cant take it
The word I love you stays around my mouth
Alone agin crying for you
Alone agin missing for you
Baby, I love you, Im waiting for you
Im probably not in your days
Probably dont have any memorise of us either
Me, how is only looking at you
Im making memories alone
Love is like beutifull scar to me
Although I see your pretty smile
I cant laught with you
The days when I think of you a lot
The days when my heart is cold and sad
The word I love you stays around my mouth
Alone agin crying for you
Alone agin missing for you
Baby, I love you, Im waiting for you
Bye, bye never say goodbye
Even thought I cant hold you like this
I need you, I cant say anything
I want you, I wish and wish again
The days, when I miss you so much
The days when I cant take it
The word I love you stays around my mouth
Alone agin crying for you
The days when I think of you a lot
The days when my heart is cold and sad
The word I miss you stays around my mouth
Alone agin crying for you
Alone agin missing for you
Baby, I love you, Im waiting for you...
