

# Stacey Earle, Show Me How

I live, I breath, like anyone I need  
To tell someone who will say nothing when I'm done  
And not give advice like it's a holiday  
Repeating it twice for just something to say

Seems I said one word  
One everybody heard  
Oh my now she's mad  
Now Stacey is being bad

I can hear but not speak for myself  
But sure cry a tear for everybody else

Someone show me how  
Come and show me how  
To be strong enough, but not too tough  
To say hold me now, come and hold me now  
I feel a little tired today

I am my worst enemy  
Please someone come save me

I live in a dream but it's busting at the seams  
Don't want to wake up by myself  
So I go shake me someone else  
But I can't see them above the crowd  
So I sit up and I scream out loud

Someone show me how  
Come and show me how  
To be strong enough, but not too tough  
To say hold me now, come and hold me now  
I feel a little tired  
I feel a little tired  
Today
