

Stacie Orrico, Deepest Blue

The sun will always shine on you, you turn my ocean deepest blue
I never had my thoughts from you, you're my deepest blue
If mother nature ever chose a name, im sure that she would chose the same
I never had my thoughts from you you're my deepest blue

Chorus x2

Am i dreaming now walkin on the moon and i dont no how to reach you
everytime i try and move closer to you (closer closer closer closer)

We've only got this time to prove that together we can make it through
I'll never have my dreams from you you're my deepest blue
If temptation ever came my way i no the words i'll always say
I'll never have my love from you you're my deepest blue

Chorus x2

everytime i try and move closer
(everytime i try and move closer)

Chorusx2

am i dreamin now
