

# Stacie Orrico, Don't Ask Me To Stay

Baby...

Its not the arguments

It aint the time we spent

I never worry bout who youre with or where you been

You take good care of me

I really should but please

I know you probably wont believe its not you, babe its me

I dont know why

I dont love you anymore

And though i try

Its just not like it was before

I wish that I

Had reason to be mad at you

Then maybe I would not feel bad for leavin you

(CHORUS)

You may not like what i have got to say

Baby i cant do this no other way

My feelings for you boy just aint the same

Make this easy please

Dont ask me to stay

Please dont say you love me

I know you do

Dont know why im not still in love with you

My feelings for you boy just aint the same

Make this easy please

Dont ask me to stay

Baby its life itself

You know how these things go

Maybe ive just grown out of you

Maybe we'll never know

I know sometimes ill miss you

This may just be my loss

Though it may not seem that way

Maybe we are better off

I dont know why

I dont love you anymore

And though i try

Its just not like it was before

I wish that I

Had reason to be mad at you

Then maybe I would not feel bad for leavin you

-CHORUS-

I dont wanna live a lie no more

How can i stay and not be sure

I wanna be with you

And i think you need to know the truth

-CHORUS x2-

Ohh stay, baby I cant stay

I dont know why
