

# Stacie Orrico, Save Me

Lately I've been feelin kinda heavy  
Could it be all the baggage im carrying  
I had a guy who wasn't right  
Talk about love and i gotta think twice  
I mean he really worked a number  
Up in my mind when I was open  
Not just my lover, was my best friend  
But he stole my heart and kept runnin

It's either love or life I want it all  
But sometimes I may not get all the calls  
Will you pick me up baby when I fall  
Keep me safe in your arms  
I know I might be movin slow  
We can pick it up later down the road  
Its a bit difficult to give you control  
But let's see where it goes

## CHORUS:

Cause I've been lied to, cheated on  
But you can make it right  
If you can come and save me, save me  
So wont you come and save me, save me  
I can't trust, the truth be told  
But you can make it right  
If you can come and save me, save me  
I'll let you come save me, save me

So far my life has been crazy  
Like a reality show  
But baby can you take the drama out my life  
Make me forget all the tears that i've cried  
Oh I think I better warn ya  
What you see ain't just what you gon' get  
Pieces of me aint right, they're still left  
Can you pull them together

Its either love or life I want it all  
But sometimes I may not get all the calls  
Will you pick me up baby when I fall  
Keep me safe in your arms  
I know I might be movin slow  
We can pick it up later down the road  
Its a bit difficult to give you control  
But let's see where it goes

## -CHORUS-

I was trapped within my pain  
Not long ago  
It's still hard  
But I try to do the best I can  
Understand if my heart breaks again  
It's already done, its over  
Cause I know my heart will never mend

But you can make it right  
Ohhh, oooh  
You're gonna make it right  
Ohhhh yeah yeah

## -CHORUS x2-

Your love is saving me

Ohhh
