

Stacie Orrico, When We Met

spoken:
this love
was my own
in theses true wrords.
i spoke

when i touched your heart
you said i was your star, i was your ray of sunshine
but thats, thats all we can say thats all we want to say
just to be your ray of sunshie
is to be your guided star.

when i touched your heart from far
you said that it was mean to be be like the way
the way we were
i spoke my way around this awkward way
i spoke spoke my way round your heart of despiration
i said we we cant be we are like family.

when i touched your heart
you said i was your star, i was your ray of sunshine
but thats, thats all we can say thats all we want to say
just to be your ray of sunshie
is to be your guided star.

this song was sang by a very old friend of mine
