

# Staind, Layne

I heard today that you were gone  
I had to stop and sing along  
The song they played to say goodbye  
A song that gave  
Gave me back life

You'll never fade  
The words you gave  
My life you saved  
Your name was Layne

And on that day a child was born  
To someone who you helped along  
And helped see through his darkest times  
Because of you, this child, she is mine

You'll never fade  
The words you gave  
My life you saved  
Your name was Layne

The words you said  
You made me feel like they were all for me  
The words you said  
They will always be a part of me  
The words you said  
You made me feel like I was not alone  
With word instead  
You gave me all the strength to carry on

So to me you'll never fade  
Your life you gave  
My life you saved  
Your name was Layne
