

# Staind, Safe Place

Another day inside my world  
I'm married to you and this road  
A road that never lets me sleep  
There's no way to escape these demons  
I am forced to keep

Chorus:

And then I find you here  
Through your eyes  
Everything's clear  
And I'm home  
Inside your arms  
But i'm alone for now

I mean the best with what I say  
It doesn't always sound that way  
I never learned to work things out  
'Cause in my family all we ever seemed to do is shout

Chorus:

And then I find you here  
Through your eyes  
Everything's clear  
And I'm home  
Inside your arms  
But i'm alone for now  
Alone for now

And I try to sleep  
The drugs I take  
Are killing me  
I think of you  
To ease my pain  
But you're so far

And now it's time to say goodbye,  
I love you baby, please don't cry..

Chorus:

And then I find you here  
Through your eyes  
Everything's clear  
And I'm home  
Inside your arms  
But i'm alone for now  
Alone for now
