

Stairwell, This Involves Us Now

Fighting from strength
From strength to the will
Does it matter now
Hold your head on honest hill

This involves us now
All in all -- short or tall
We will not fall

War is...
War is the worst of all
Fear will make you brave

This involves us now
All in all -- short or tall
We will not fall

Courage to my brother
The worst is yet to arrive
It doesn't get any easier
The worst is yet to arrive

There's reasons,
There's reasons for your tremble
Your tremble
They're not there by mistake
