

Stanek, Give me a hug

Even if I do know your name
Even if I not dare
Even if I found my heart
On pieces down on the floor
You don't have to be my friend
Take my heart
And grab myself
That's gonna be alright
That's gonna be ok.

We're beautiful things together
We can do our things forever
.. happiness to the world
You could be my other heart

Even if you can't keep smiling
Even if I stand crying
Even if get bored I can cheer you up with tis one glance
You don't have to be worry
Just take my love
Give me a hug
That's gonna be alright
That's gonna be ok.

We're beautiful things together
We can do our things forever
.. happiness to the world
You could be my other heart
