

Stanfour, In Your Arms

I'll keep going on
As just another one
With another song
Who wants to be the only one for you

Just another guy
Blinded by your smile
Just a lonely heart
Can't stand this aching feeling we're apart, ... apart

Let me sleep in your arms
Let me breathe this clean bright light surrounding you

I know I'm not smart
But still I'm trying hard
Let me be your guard
Protecting you, my angel, from the dark

I will not pretend
That I'm just a friend
My deliverance
Will you think about me every now and then...
When I call again

Let me sleep in your arms
Let me breathe this clean bright light surrounding you
Let me dream in your arms

I can't breathe
I can't breathe
Without you
