

Stanisław Soyka, I Never Felt This Before

Oh oh, yeah
Oh oh, yeah

Now that I saw you I
Got this feeling from
Deep inside me
To make me tremble
My head was spinning
It left me yearning my love

Things went missing
When the fever hit me
My world started turning
The way it used to do
I had the motion
I had to have you near me

I never felt this way before
Something I just couldn't ignore
I feel it, I want to get to love your body baby
I don't mean maybe
You're driving me crazy

The night I met you
Your eyes were smiling
I asked you to a dance of Frank Sinatra
I held you so close
My heart is beating wildly

Now we dance slowly
Cause the Lord has told you
When things are rolling like we wanted them to do
We're together like birds of a feather, we're flying

I never felt this way before
Something I just couldn't ignore
I feel it, I want to get to love your body baby
I don't mean maybe
You're driving me crazy

I never felt this way before
Something I just couldn't ignore
I feel it, I want to get to love your body baby
I don't mean maybe
You're driving me crazy

Oh oh, yeah
Oh oh, yeah
Oh oh, yeah
Oh oh, yeah
