

Stanisław Soyka, Love is crazy

We are tasting day by day
Moments that were made (meant) for us
Smiling down in star in heaven
Joined our hands and rhymed our words
Empty pockets, shining hearts
And sometimes a little trouble
Our belief is like a rock
La la la la, love is crazy

We don't need to talk about it
See the moon is shining brightly
And before it turns into the morning sun
Anything could happen, Baby
Love is crazy

As we travel we are waving
Knowing nothing of the future
We are working without rest
We are building, never burning
Have no fear, no illusions
No more sadness, no more tears
Our belief is like a rock
La la la la, love is crazy

We don't need to talk about it
See the moon is shining brightly
And before it turns into the morning sun
Anything could happen, Baby
Love is crazy

We are watching from our window
Cars and buses hurry by
People run into the city
It goes on and on and on
Night is coming, smiling down
The star in heaven touches You, touches me
Love is crazy

We don't need to talk about it
See the moon is shining brightly
And before it turns into the morning sun
Anything could happen, Baby
Love is crazy
