

# Star One, Into The Black Hole

(Damian:)

A dark sphere surrounds us

(Floor:)

Surreal...oblivious...

(Damian:)

In the centre of the galaxy

A hidden force has found us

(Floor:)

Powerful...mysterious...

(Damian:)

At the boundary of eternity

(Floor:)

Aaaaahhhh

Aaaaahhhh

Aaaaahhhh

Aaaaahhhh

(Damian:)

Nothing escapes, not even light

Beyond the mystical horizon

We surrender to its might

Gazing into the eye of the universe

(Damian:)

A deep roar is sounding

(Floor:)

Deafening...thunderous...

(Damian:)

As if the universe were crying

My heart is pounding

(Floor:)

Frantic...delirious...

(Damian:)

My every nerve is dying

(Floor:)

Aaaaahhhh

Aaaaahhhh

Aaaaahhhh

Aaaaahhhh

(Damian:)

Nothing escapes, not even light

Beyond the mystical horizon

We surrender to its might

Gazing into the eye of the universe

I hear screams of fallen souls, sad cries of agony

Within the void of this evil hole, deep inside the black

Could it be my imagination, the mirror of my fantasy?

A fear-induced hallucination

Or is there no way back from the halo of darkness?

Spirits - apparitions - misery - suffering

Horrid dreams and dire visions rising up from the black

Look away in disbelief, this cannot be happening  
The end has come, I bow in grief  
There is no way back from the halo of darkness

(Damian:)  
Now silence devours us

(Floor:)  
Massive...suffocating...

(Damian:)  
The calm before the storm  
Gravity overpowers us

(Floor:)  
Invincible...dominating...

(Damian:)  
And leads us through the final door

(Floor:)  
Aaaaahhhh  
Aaaaahhhh  
Aaaaahhhh  
Aaaaahhhh

(Damian:)  
Nothing escapes, not even light  
Beyond the mystical horizon  
We surrender to its might  
Gazing into the eye of the universe

(Floor:)  
Feed me light, I'm the halo of darkness  
Feel my might, I'm the eye of the universe  
Feed me light, I'm the halo of darkness  
Feel my might, I'm the eye of the universe
