

# Star Salzman, Magellanic

Today I think I'll go for a swim,  
I'll see what's under that ice over there (ice over there)  
I think I'll wear my favorite clothes,  
My best pair of formal wear (best formal wear, best formal wear)

It's so cold (it's so cold)  
The water is just above 32 degrees (zero degrees in Celcius)

I can't fly (I can't fly)  
But I can swim here, better than any other bird you see

You look like you, I look like me,  
We all look the same to them (same to them)  
Live by the lake, or by the sea  
Or maybe in Tasmania with a wallaby (Tasmania with a wallaby)

It's so cold (it's so cold)  
A storm is passing overhead

I can't fly (I can't fly)  
So I'll just stay on the ground instead

I see all of you in shades of black and white  
Stick close to me, I'll keep you warm all through the night  
Oh, don't be scared of the sea, you see I'm emperor,  
Follow me, follow me

Today I think I'll go for a swim,  
I'll see whats on the other side of that big mountain over there  
And when I find the place where I used to be,  
I'll try to stay in the same place forever because  
It's warmer than the rest of them,  
It's warmer than the sea

It's so cold (it's so cold)  
I feel like I am reborn anew

I can't fly (I can't fly)  
So I'll just stay on the ground with you
