

Starley, Call On Me

When you're low and your knees can't rise
You feel helpless and you're looking to the sky
Some people would say to accept defeat
Well if this is fate then we'll find a way to cheat
Oh oh oh oh oh, we'll say a little prayer
But Oh oh oh oh oh, if the answer isn't fair

You know you can call on me
When you need somebody
You know you can call on me
When you can't stop the tears from falling down
(Down)
You know you can call on me
You know you can call on me
Call on me darlin'

When you're weary and the road is dark
I'll guide you with the beating of my heart
If the calvary and the help don't come
Then we'll find a way to dodge a smoking gun
Oh oh oh oh oh, we'll say a little prayer
But Oh oh oh oh oh, if the answer isn't fair

You know you can call on me
When you need somebody
You know you can call on me
When you can't stop the tears from falling down
(Down)
You know you can call on me
You know you can call on me
Call on me darlin'

When you, you need someone
You need somebody to cling to
When you, you need someone
You need somebody to dry your tears
When you you need someone
You need somebody to cling to
Call on me love
Call on me love
Call on me love, on me
