

# Starlight Mints, Sugar Blaster

Who's on that star?  
Who's on that star?  
Who's on that star, my sugar black star?

Who's on that star?  
Who's on that star?  
Who's on that star, my sugar black star?

Who's on that star?  
Who's on that star?  
Who's on that star, my sugar black star?

Follow me to the echoe machine.  
You better bet your trust on the magic dust.  
Clap your feet to the melody.

Say goodbye (say goodbye, oh oh oh)  
Say goodnight (just say goodnight, oh oh oh)  
Set them free (set them fly, oh oh oh)  
With your black star!

Count your teeth for the royal queen.  
She's got a puff for you if your motor's clean.

Say goodbye (just say goodbye, oh oh oh)  
Say goodnight (just say goodnight, oh oh oh)  
Set them free (set them fly, oh oh oh)  
With your... with your black star!

Follow me through clouds of secrets sleeping  
And watch your touch go creeping  
And touch the rain, touch the rain.  
Press the gain, too encrust the rain.  
No charades, no siree.  
Touch the press and see  
What you can, what you are  
Just a friendly being.
