

# Starsailor, Bring My Love

Bells will ring and everyone will know  
I came to bring my love back home  
The sun will dawn on all our days of woe  
I came to bring my love back home  
All the sea shall rise, all the stars will shine  
And the moon will fall across the meadow  
And I won't be caught in this state of mind  
For I know that I'd be your fellow

All the sea shall rise, all the stars will shine  
And the moon will fall on the meadow  
And I won't be caught in this state of mind  
But I know that I'll be your fellow

Bells will ring and everyone will know  
I came to bring my love back home  
The sun will dawn on all our days of woe  
I came to bring my love back home.
