

# Start Trouble, Throw The Covers

Throw the covers over me  
Throw the covers over me  
Throw the covers over me  
Throw the covers over me

And I don't wanna do what you said  
I'd rather stay home in bed  
For the rest of the day  
Playin' video games  
Don't wanna be at my job  
I'll tell my boss to fuck off  
Don't wanna do what you said  
I'd rather stay home in bed

Last night I drank too much liquor  
To remember shit  
Who was that chick, did I stick her?  
Forget about it  
I'm makin' every excuse now  
To stay home today  
So just try and get used to  
My lack of respect  
For authority inside of me  
And I was born with no choice in this  
Whatsoever

And I don't wanna do what you said  
I'd rather stay home in bed  
For the rest of the day  
playin' video games  
Don't wanna be at my job  
I'll tell my boss to fuck off  
Don't wanna do what you said  
I'd rather stay home in bed

It's always monday in my head  
So everyday sucks  
And just the thought of my lifestyle  
Is really enough  
My head is pounding  
Alarm is sounding  
And I don't know know if I will ever comply  
To authority inside of me  
And I was born with no choice in this  
Whatsoever

And I don't wanna do what you said  
I'd rather stay home in bed  
For the rest of the day  
Playin' video games  
Don't wanna be at my job  
I'll tell my boss to fuck off  
Don't wanna do what you said  
I'd rather stay home in bed

And every day I live this fantasy  
Of never waking up  
So many hours are just wasted  
Being conscious  
Throw the covers over me (4x)

And I don't wanna do what you said  
I'd rather stay home in bed  
For the rest of day

Playin' video games  
Don't wanna be at my job  
I'll tell my boss to fuck off  
Don't wanna do what you said  
I think ill stay here in bed

I don't wanna do what you said  
I'm gonna stay here in bed  
I don't do what you said  
I'm gonna stay here in bed  
I don't wanna do what you said  
I'm gonna stay here in bed  
And I dont wanna do what you said  
I'm gonna stay here in bed  
Yeah! Yeah. Yeah! Yeah.
