

# Static X, Electric Pulse

It's time to melt you down  
It's time to strap you in  
Your mind's about to  
be diminished  
I scream to get me off  
Air blast to pull you in  
You feel the atrophy  
Electric  
Electric pulse  
Nightmares to shut you down  
Static to keep you in  
Darkness what you don't see  
Atomic  
Shockwaves to set you off  
It's time to throw the switch  
It's time that you receive  
Electric  
Electric pulse
