Static X, The Enemy

-The Enemy-
Confine me it's all that I see
Sickness keeps you following me
Keep it inside, all that is sharp
Hold it inside, all that is dark
Tear
I'll shut you up x8
Down, down, down
I'll destroy you
Kill or be killed
Down, down, down
You've become the enemy
Enemy
I thank you for making me feel
Make me feel like I want to kill
You show me you're evil inside
Now won't you just curl up and die
Tear
I'll shut you up
Down, down, down
I'll destroy you
Kill or be killed
Down, down, down
You've become the enemy
Enemy x2
You make me
You make me hate
You make me
You make me hate you x5
You make me
You make me hate
You make me hate you
Down, down, down
I'll destroy you
Kill or be killed
Down, down, down
You've become the enemy
Enemy
You make me
You make me hate
You make me
You make me hate you
