

# Status Quo, Back On My Feet

(Rossi/Frost)

I'm back on my feet again, I'm flying high  
Watching my back again, or I could die

When we're up there flying  
And it all seems fine  
That's the time we're trying  
Trying hard, what a fool  
Saying anything to please at all  
But I'm back on my feet again, I'm flying high  
Watching my back again, or I could die

Is it down to timing?  
Get it right first time  
Is it so exciting?  
Keeping on with the flow  
Giving everybody such a show  
But I'm back on my feet again, I'm flying high  
Watching my back again, or I could die  
Out on the street again, I'm riding high  
Worried 'bout anything that passes by

It's not a nightmare or a dream  
It's not the first time that it's been

I'm back on my feet again, I'm flying high  
Watching my back again, or I could die

So it's time to work out  
What is going on  
So you'd best not freak out  
Lose your mind, lose your cool  
It's the quickest way to end it all  
But I'm back on my feet again, I'm flying high  
Watching my back again, or I could die  
Out on the street again, I'm riding high  
Worried 'bout anything that passes by  
Back on my feet again, I'm flying high  
Watching my back again, or I could die
