

# Status Quo, Bad Company

I've seen your eyes, they hypnotise  
I cannot look away  
I know what people say  
You're bad company

I've seen it when you need a man  
And i could lose my life  
I know I'll pay the price  
You're bad company

You're the witch in the wild  
And you're driving me out of my mind  
You're the devil inside  
I'd rather not find

See my friend you'll never mend  
And see his look of pain  
And you, you are to blame  
You're bad company

I've seen the snake that comes away  
And lives beneath the moon  
And you, you call the tune  
You're bad company

You're the witch in the wild  
And you're driving me out of my mind  
You're the devil inside  
I'd rather not find

Bad company, you had to be  
Bad company

You're the witch in the wild  
And you're driving me out of my mind  
You're the devil inside  
I'd rather not find

Bad company, I soon will be  
Bad company

You're the witch in the wild  
And you're driving me out of my mind

Bad company, bad company  
Bad company
