

Status Quo, Don't Stop Me Now

(Lancaster/Bown)

Oh baby please, I'm on my knees
Oh baby please don't stop me now
Oh baby please don't stop me now

I scheme all night and I dream all day
I'm so paranoid someone's gonna take you away
You look surprised and I'm so amazed
But don't let true love fade away

I see your face and I hear your name
Give me one chance and no-one's gonna take you away
You look surprised and I'm so amazed
But don't let true love fade away

Oh baby please, I'm on my knees
Oh baby please don't stop me now
Oh baby please, it's always been a dream
If it's really me don't stop me now
Oh baby please don't stop me now

You look surprised and I'm so amazed
But don't let true love fade away
You look surprised and I'm so amazed
But don't let true love fade away
