

# Status Quo, Lonely Night

Sitting by the window where I used to sit with you  
Playing all the old songs like we often used to do  
It was a lonely, lonely, lonely, lonely night  
It was a lonely, lonely, lonely, lonely night  
Went by a friend, he said, this is not a lie  
You're back again, and I couldn't laugh or cry  
'Cos I never thought I'd see or hear you again

Took me down to Sally's where the band was playing loud  
Didn't take me too long to find you there with a crowd  
It was a lonely, lonely, lonely, lonely night  
I had a lonely, lonely, lonely, lonely time  
I tried to find something right for me to say  
Can't you decide when you left me on that day  
'Cos I never thought I'd see or hear you again  
Oh no, I never thought I'd see or hear you again  
No, I never thought I'd see or hear you again

Oh no, I never thought I'd see or hear you again  
No, no, I never thought I'd see or hear you again  
No, I never thought I'd see or hear you again  
No, no, I never thought I'd see or hear you again.....
