

Status Quo, Money Don't Matter

(Rossi / Young)

Beat life, I'm doing it all
Looking after number one is the call
What's life doing for you?
Shouldn't we be asking what we can do?
That's life, we give and we take
It's how it should be, not "I want it now"
Won't someone please show me how
We can get to it, place our bet, do it
We can get to it now

Money don't matter, money don't matter
Money don't matter, tell it to your brother
Money don't matter, money don't matter
If money don't matter, tell me why we bother

No time, and don't understand
Why won't everybody do what they can
This time running away
Isn't gonna make it better today
Next time, making your day
Isn't gonna be so easy to say
Won't someone show me the way

We can get to it, place our bet, do it
We can get to it now

Money don't matter, money don't matter
Money don't matter, tell it to your brother
Money don't matter, money don't matter
If money don't matter, tell me why we bother

Money don't matter, money don't matter
Money don't matter, tell it to your brother
Money don't matter, money don't matter
If money don't matter, tell me why we bother

It makes me mad
And sometimes sad
It makes me think that what has been done so far
Makes no difference at all

Money don't matter, money don't matter
Money don't matter, tell it to your brother
Money don't matter, money don't matter
If money don't matter, tell me why we bother

Oh, money don't matter, money don't matter
Money don't matter, tell it to your brother
Money don't matter, money don't matter
If money don't matter, tell me why we bother
