

Status Quo, Mystery Song

(Parfitt/Young)

I see that look on your face
I see that look on your face
I see that look on your face, oh-oh-oh

The boys know what you're giving, you give the boys such a lot of fun
And by the way that you make a living you've got the boys all on the run
S.T.'s showing, you really got me going maybe you can give me a price
I wanna try it, yeah I wanna buy it, tell me would you treat me nice
Oh my legs are shaking, oh my heart is breaking
I'm just feeling like a boy
Now I just can't slow down, gotta get in, go down
Have my share of what a joy

Now I've got your name and number, I like to look upon your face
And now you know that I wanna take you, give me the time you can name
the place
Call me honey, you can take my money, baby we can make a deal
I really mean it, gotta get between it, do you know the way I feel?
Oh I'm feeling kinda like I've gotta find a way to make you understand
Oh I know you're lying and your love I'm buying
Oh I'm feeling like a man

The boys know what you're giving, you give the boys such a lot of fun
And by the way that you make a living you've got the boys all on the run
S.T.'s showing, really got them going, you can even say the price
They'll wanna try it, even wanna buy it if you really treat them nice
But I'd rather take you, show that I can make you
Good enough for just one man
Oh I'm feeling kinda like I've gotta find a
Way to make you understand
